

# ***DECORLUX***

## **Windows & Doors Products**

We at Decorlux are proud to work alongside Kommerling and offer a large variety of products created using premium quality profiles and high skilled production personnel. We stand for sustainability, quality, and variety of window and door systems.

**20**  
YEARS

## The smart choice

Decorlux is the only Romanian large scale manufacturer of residential windows and doors that managed and maintained a successful, 20 years old, partnership with Profine GmbH.

Decorlux provides the best possible solutions for all window and exterior door systems. With extensive experience and innovation in window and door manufacturing, Decorlux has successfully served its community with quality products while maintaining an affordable pricing structure.

As part of our expansion strategy we have opened 2 state of the art showrooms in Piatra Neamt - Romania and Cento - Italia.

Our commercial offer includes high quality uPVC and AL windows and doors. We design and build products to your exact technical specifications. These products range from affordable, entry level profiles like Creative (70 mm, 5 chambers) to premium, exclusive ones like Termoconfort (88 mm, 7 chambers).

We are constantly looking for new partners, new ways to bring the patented Decorlux quality to every residential and industrial building.

20 years of excellence.

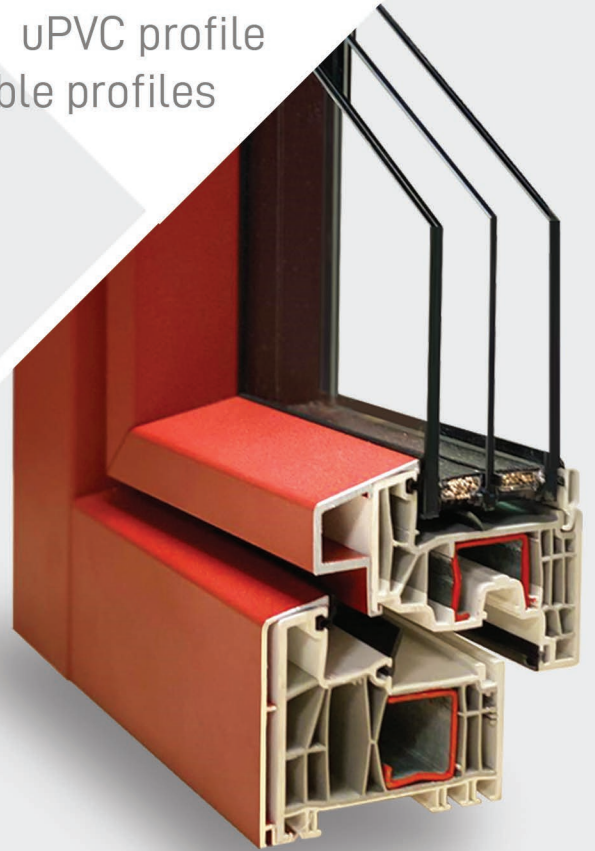

**DECORLUX**

**Premislide**- uPVC sliding door profile  
1 of 4 available profiles

## Current projects

Decorlux is part of 2 large scale development projects in Italy and Belgium. Our teams of engineers and assemblers are proudly representing Decorlux standards on these worksites.

**DECORLUX** has always been synonymous with outstanding premium quality. We are one of Romania's top manufacturers of PVC-U windows and doors.
